Here and There

Premier Gordon S. Harrington, of Nova Scotia, has returned from his trip to Europe by the Empress of Britain.

Growth of all crops in western Canada is now vigorous and well advanced for the time of year, according to the latest weekly survey made by the Canadian Pacific Railway's agricultural department, and crop prospects in the West as a whole are encouraging.

Members of the British party touring the Dominion under the auspices of the British Columbian Government, arrived at Montreal aboard the Duchess of Bedford, travelled across Canada by Canadian Pacific rail and lake steamship, stopped over at Banff and will spend between June 15 and July 2 in British Columbia.

Delta Gamma, one of the most important Greek Letter organizations on the continent, is holding its annual convention this year at the Empress Hotel, Victoria, June 27-July 1. Shopping over at Banff, a Canadian Pacific special will carry delegates to the Pacific Coast from Chicago, while Canadian members from Montreal, Toronto and Edmonton will join the main group at Victoria.

If early promise is fulfilled, the Annapolis Valley should this year produce an even larger yield of apples than in 1931, when the total crop was close to a million and three-quarters barrels, is the opinion of leading fruit men at Kentville, N.S. The bloom this year lasted over ten days and attracted visitors by the thousands from Eastern Canada and the United States.

Miss Constance Regan, Middleburg, Va., established a record for women anglers on the Tobique River, New Brunswick, recently, when she took a 27½ lb. Atlantic silver salmon, the largest ever caught with a fly by a woman on that river. The record salmon taken in those waters by a male angler weighed 33½ lbs.

Canadian Pacific standard time is standard time the world over. Prior to 1883, every town and city had its own local time, based on the sun, but in that year the suggestion of Sir Alfred Fothergill, chief engineer of the Canadian Pacific Railway, that the world should be divided into 24 sections, one for each hour of the day, and that time within each of these areas should be standard, was adopted all over Canada and the United States. In 1884 the plan was also adopted in Europe after a conference held at Washington.

Gilbert Miller, architect, of Yonkers, N.Y., has a grudge against windows and doors in office buildings and summer homes. He found both too narrow to admit a moose head with an antler spread of five feet five inches taken from a monster he shot near St. Jovite last season. "It looks," he wrote to A. O. Seymour, general tourist agent Canadian Pacific Railway, "as though both the head and myself will end up in the garage." But that is the kind of trophy to be put in the forests of Quebec. Big heads and lots of them. (649)

News of Baseball.

At the first game in Stony on Sunday S. P. Intermediates v. Millet, the latter won by 17 runs to 8.

In the 2d Sunday game, Winterburn v. Stony, played in the evening, the score was a tie—12 all. The errors are said to be in the three figures. Of course, y understand this estimate would include both teams.

Stony's All Stars are sending a ball team up to the Wildwood tournament.

The Onoway team plays on the local diamond tonight; the 30. h.

Whist Drive Winners.

At the whist drive at the town hall on Friday night, given by the Baseball club the winners were:

Men's 1st, Geo. Miller; 2d, Art Mundt; consolation, Magnus Larson.

Lady's 1st, Miss Marie Gannon; 2d, Mrs. Wood; consolation, Miss E. Daumler.

Those who donated the prizes—J. F. Clarke (2), T. J. Hardwick, M. Comisarow.

Municipality Hires Surgeon.

At a recent meeting of the councillors of Pine Lake Municipal District it was decided to employ a surgeon at a salary of \$3000 a year. The surgeon's duties will be to deal with teeth extractions, deal with consils, adchills and other minor ailments of the school children in the municipal district.

Sales Tax Nicks Everything.

This is the "ax and tax" era, says an exchange, and if the axe has been applied tenderly, as a man carresses his cringing cheek with a cold safety razor, the taxing end of the business has gone forward lustily, like the last period of a hockey game. So much so, that it is a strain on the mind to find things that are not taxed. Hereabouts the sales tax nicks everything, from baby's milk to grandpa's coffin. It is related that a man, out his shirt to the Income Tax Office the other day just to show he takes his duties as a citizen in the proper spirit.

Absolute Divorce Granted.

At a sitting of the Supreme Court, in Edmonton last week and just before the hearing of the Abbott-Armbruster case, Mr Justice Tweedie granted a decree absolute in the divorce action of Margaret Roberts (nee Fischer) of Stony Plain against David Roberts. Geo J. Bryan appeared for Roberts.

New It's Bad Two-bit Pieces.

Having made a partial recovery from the bogus 50c. piece fever, which raged in Edmonton for a short time, the citizens there are now worried by the fact that bogus 25c. pieces are now in circulation at the Metropolis. As usual, the police "are bending every energy" to capture the issuers or makers of the base metal pieces.

The first bogus coin turned in was stamped 1927, and is a remarkably good imitation of the genuine. Experts say it's made of lead coated with mercury. It differs from the genuine in that it feels slippery to the touch when rubbed.

Abbott vs. Armbruster

This case, which had attracted considerable attention among the residents of the Stony Plain district, came up for trial in Edmonton last week. The case arose out of a collision between a car driven by Mr John Armbruster and a coupe driven by one Amedee Brisson, at the intersection of 1st ave. and Meridian road. Miss Laura Abbott, one of the passengers in Brisson's coupe, suffered injuries, and as a result sued Armbruster for \$10,300.

The plaintiff, and Brisson endeavored to prove that Mr Armbruster, on entering the Meridian road, had taken a wide curve, and had failed to give the Brisson coupe room to pass.

Under cross-examination, these parties admitted that four persons were riding in the Brisson coupe, and that they had been up all night. They were also forced to admit that, on many points, their evidence did not coincide with that given on the examination for discovery.

The witnesses for the defence then proved that the plaintiff had made false statements as to the speed of their coupe, and its position on the road. It was shown that Mr Armbruster had never crossed the center line of the road.

Mr Justice Tweedie, who was hearing the case, found no fault with Mr Armbruster's driving, and consequently dismissed the case with costs. The Judge remarked that the plaintiff had sued the wrong party; had she sued Brisson he would have awarded damages.

Neil D MacLean and Geo. J. Bryan appeared for Mr Armbruster; Mr Bryan taking most of the direct examination, Mr MacLean the cross-examination. Sidney Wood and Hugh J McDonald represented Miss Abbott.

The World's Way Out

The subject of tariffs and other trade restricting devices has passed, or is rapidly passing, out of the field of political not only in Canada, but throughout the world. The severe economic depression from which all nations have suffered, and from which they still continue to suffer, has taught all people that it is economically impossible to provide work for people everywhere and at the same time erect barriers to prevent them from exchanging the products produced by their labor.

The trained countries, the great bankers and large financial institutions, the executives of transportation systems, and finally the statesmen of the world struggling with the problems of mounting national debts, ever increasing taxation yet declining revenues, coupled with the necessity of making huge relief expenditures to keep people from starving, now realize that the remedy for this state of affairs lies in encouraging, rather than restricting, trade throughout the world.

It is no longer a matter of party policy, but of national, yes, international, policy. Regardless of party names and old party traditions and former policies, people everywhere now appreciate the economic truth that it is impossible for every nation to have a so-called favorable balance of trade, that is, selling more to other countries than they buy from them. If one nation sells abroad more than it must buy, and when every nation adopts as its national policy the selling of the largest possible volume of its products abroad and buying as little as possible from other nations, the inevitable result is stagnation of trade. That stagnation has been brought about, and the whole world is suffering as a result, and because of this mutual destruction of business millions of men and women are out of employment, while the youth of each country approach manhood and womanhood and no openings available in which to exercise their abilities and energies.

The real problem facing the world is how to break down these trade barriers. Inside the walls thus erected along all national boundaries there have grown up industries of all kinds, many of them artificially forced and developed and protected against similar industries located elsewhere in a natural environment. To remove this protection from these artificially created and stimulated industries, thus confronting them with the competition of the more naturally placed and established industries of the same class, means the extinction of the former, resulting in loss and readjustments which no country is anxious to face.

Nevertheless, the world has reached an impasse where such losses and readjustments must take place. In the final analysis, these losses would ultimately be offset by greater gains; there would be individual losses, but great national gains. The world is beginning to realize this, but the problem is how to effect the necessary changes. It is doubtful if it can be brought about by any great international conference or agreement between all nations. And of course it is impossible for one nation alone to throw down its tariff walls while all other nations maintain them. Great Britain stood alone among the nations for many years, with the result that it was made the dumping ground for all other nations. It was Britain's action in finally closing its doors that brought home to the world the suicidal course upon which all had embarked.

These tariff barriers were erected piece-meal over a long period of years, they will have to be torn down by simply reversing the process. In the past one nation erected a tariff wall, then other nations followed suit in self protection. Then nation number one raised its wall still higher, and the others followed suit. Now, in order to get out of the jalls they have built for themselves, these nations must begin to lower their walls, brick by brick.

Probably the most effective way will be for two nations to enter into trade agreements calling for lower tariffs, or none at all, between them. Trade will begin to flow between such nations. As a result a third nation, and then a fourth will be anxious to enter into the same arrangement.

That this procedure will in all likelihood be followed is indicated by the recent announcement from Lausanne that Holland, Belgium and Luxembourg have reciprocally agreed not to impose any new tariffs, or other trade restrictions, between them and to proceed by annual reductions of 10 per cent. of their existing tariffs until a definite tariff level is reached. This is the best news this old world has heard for many years. True, these are small nations and not classed as among the foremost trading nations, but it is a hopeful sign.

Now, if that great group of nations constituting the British Commonwealth of Nations will, at the approaching Imperial Economic Conference at Ottawa, follow the lead of these nations among themselves, and impose no new tariffs, but to remove many of the trade restricting devices at present in vogue, and proceed to enlarge the British preferential features in their tariffs by stated percentages over a term of years until their tariffs against each other are reduced to a minimum, or, better still, wiped out and free trade within the Empire established, the whole world will begin to see light and recover, because if the British Empire as a whole adopts such a policy, the rest of the world cannot afford to maintain restrictive policies.

And it should always be remembered that it is but a short step from economic warfare to actual physical, military, naval and aerial warfare. Friendly trade relations between nations are the surest guarantees of the maintenance of peaceful political relations between them.

Want Canadian Apples

The new British tariff has created an unprecedented demand for Canadian apples, was the statement made on his arrival at Montreal on the Canadian Pacific liner "Duchess of Richmond" by J. Forsyth Smith, Canadian government fruit commissioner to Great Britain.

Budapest is on both sides of the Danube River. Buda is on one side and Pest on the other.

Suffered A Severe Attack Of Dysentery

Mr. P. L. D. Moulard, Vernon, B.C., writes: "Last Summer I suffered from a severe attack of dysentery. I tried nearly everything on the market, without getting any relief, until a friend told me to use Dr. Fowler's Extract of Wild Strawberry, which I did, and I got immediate relief. Now I am making it a rule to always keep a bottle of it in my medicine chest."

"Wild Strawberry is my relief for dysentery, colic and diarrhea, but I always see I get the genuine 'Dr. Fowler's'."

Valuations In Contract

By HANNA B. HATCH, Cavendish Club, Toronto

There are two ways cards must be valued in Contract, i.e. from the defensive trick taking probabilities of the hand, and from the quantitative trick taking probabilities of the hand when played on the offensive.

Primarily it may be said the defensive are high card valuations i.e. Aces, Kings, and Queens and their combinations. For defensive purposes barring exceptional cases, ruffing tricks and small cards of long suits cannot be considered.

As shown in previous articles the chief essential of an opening bid is the presence of three or four high cards (called honor tricks or quick tricks) as a minimum, in the opening bidder's hand. These high cards are ones which the opening bidder thinks, will, under normal distribution of the other cards in the other hands, take from two to three tricks against any bid the opponents may make. That, therefore, with an average hand in the hand of the partner of the opening bidder, the opponents cannot bid and make game. It is on this premise that the theory of the opening bid is founded.

In valuing high cards defensively the writer only figures first and second round high cards, that is Aces and Kings and their combinations. No definite defensive value is given to third round tricks. Their value is considered indeterminate and is called "plus" value. A half a trick is a high card which will take a whole trick half of the time, the following table practically covers all combinations to which definite defensive trick taking probabilities can be given.

One Half a Trick—Any King X
One Trick—Any Ace, any King Queen, any King Jack Small, any King Small, and Queen Small in different suits.
One and One Half Tricks—Any Ace Queen, any King Jack.
One Half a Trick—Any King Small.

One Trick—Any Ace, any King Queen, any King Jack Small, any King Small, and Queen Small in different suits.

One and One Half Tricks—Any Ace Queen, any King Jack Ten, any Ace Jack Ten.

Two Tricks—Any Ace King.
All other high cards, queens, jacks, singleton kings etc., are simply lumped under the valuation "plus."

Quantitative trick taking valuation is a combination value for the twenty-six cards of the partnership and comprises three kinds of cards that will take tricks, i.e. high cards and their combinations—two small cards of long suits—three small trumps that can be used for ruffing. The values under two and three are called distributional values.

Of the tables arranged for valuing cards quantitatively, the table sponsored by Ely Culbertson is probably the most complete and most accurate. It must be remembered, en passant, that distributional valuations are only to be relied upon up to a maximum of ten tricks for the combined hands. Beyond ten tricks distributional valuations, as a rule must be extremely well fortified with high card tricks.

In no trump declarations, quantitative valuations must, of necessity, cover only the first two kinds of tricks, as in no trump there can be no ruffing tricks. This is the fundamental reason why fewer number of tricks are required to go game in no trump than in a suit declaration. Therefore it follows logically that those hands which contain little chance for the making of ruffing tricks, should whenever possible, be played in no trump as the cheapest way.

The game recommends it. This being so, contract players who hold a balanced hand i.e. a hand which contains no void or singleton should endeavor whenever possible, to play the balanced hand in no trump, provided the partner's hand is not unbalanced.

The table given below, for use in valuing hands quantitatively is taken from the Culbertson with only minor variations.

Card Valuations From Declarer's Standpoint

A. K. Q. J.	4	Tricks
A. K. J. 10	3½	Tricks
A. K. Q. J. 10	3½	Tricks
A. K. Q.	3	Tricks
A. K. J. 9	2½	Tricks
A. K. J.	2½	Tricks
A. K. 10 9	2½	Tricks

Eno keeps you Clean Inwardly

It's far more important to clean the inside than the outside of a milk bottle. For the same reason, clean intestines are far more important than clean faces and hands. Nothing will cleanse your intestines better than ENO'S "Fruit Salt." Take it regularly, morning or night. Be ENO conscious!

ENO'S FRUIT SALT

Increase in Liquor Export

An increase of more than 140,000 gallons in the export of whiskey from Canada to other countries during May is noted in a report issued by the Department of National Revenue. The total exported in May last year was 96,533 gallons, and last month the volume had risen to 236,496 gallons. Practically all of the increase is accounted for in the exports to the French possessions of St. Pierre and Miquelon.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numerous cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Idea Was Money Maker

The wooden pen holder is 100 years old. It was such an immediate success that makers of quill pens were left with huge stocks on their hands and would have been ruined but for the brilliant idea of one man, who turned the unsold pens into toothpicks.

Keep Douglas' Egyptian Liniment handy. A sure, speedy remedy for burns, sprains, felons, blood poisoning, soft corns, warts, scald feet, invaluable for inflammation and muscular rheumatism.

Gibbs: "Oh, yes, Jones is an ass and all that, but you'll never hear him say a mean thing about his wife." Dibbs: "I don't know. He says she made him what he is."

More than 17,500,000 people attended dog races in England last year.

Stops Summer Odors

The heavy smell which warm weather brings to many people is largely prevented by regular bathing with a free lather of Baby's Own Soap.

The delicate aroma dispels all unpleasantness and the skin feels so refreshed, cool & sweet. Baby's Owns sells at 10c. a cake at dealers everywhere.

"Best for you and Baby too"

PERSONAL

SCOTCHER LADY AT PRESENT IN—Canada, would like to take in charge one or more young ladies. Has experience in travel abroad, and with Canadian girls. Could act as companion to lady, in any part of Canada, or as travel companion. Has excellent testimonials both in Canada and in Britain. Would willingly give more information to interested party.—Apply Box 50, Winnipeg Newspaper Union, 175 McDermott Ave., East, Winnipeg, Man.

Recipe For Iced Tea

Tells How To Prepare This Delectable Summer Drink

Use 6 heaping teaspoons of "SAL-ADA" Black Tea; brew tea in one pint of freshly boiled water for five minutes, strain, and pour liquid into a two quart container. While hot, add one and a half cups of granulated sugar and juice of 2 lemons. Then shake or stir contents well until sugar is fully dissolved. Fill container with water. DO NOT ALLOW TEA TO COOL BEFORE ADDING THE COLD WATER; otherwise, liquid will become cloudy. This is now ready to serve in tall glasses with chopped ice or cubes of ice added. A slice of lemon or may also be added if desired. This recipe will make two quarts of Iced Tea, or 7 tall glasses.

Persian Balm—the perfect aid to beauty. Essential to real feminine distinction. Results always in the highest expression of beauty. It keeps the hands always soft and flawlessly white, indispensable to the whole family. Imparts added charm to the mother. Serves the father as a tonic, and protects the tender skin of the child. Persian Balm is the true toilet requisite.

Helping Test Service

Sanikatchewan Government Routes Order From England Via Churchill
Believing that every little bit helps, R. S. Garrett, Saskatchewan King's Printer, has requested an English firm to route an order for stationery through Hudson Bay and Churchill. "It will be only a small order," he said, "but it will add one more customer to the test, and will give the government first-hand information of time required and cost of delivery from England to Regina through Churchill."

Many mothers have reason to bless Mother Graves' Worm Extremator, because it has relieved the little ones of suffering and made them healthy.

Surgeon Says United States Intelligence Tests For Immigrants Are In Need Of Revision

Intelligence tests now available must be revised or the methods of curing changed before they are satisfactory for testing immigrants, it appears from a report of Dr. Lawrence Kolb, senior surgeon of the U.S. Public Health Service, before the meeting of the American Association for the Study of the Feeble-minded.

The law now provides that no mental defectives shall be admitted to this country. But although psychologists have devised special tests which do not require the use of language, the scores on these tests do not give a true picture of the mental ability of the person tested. Dr. Kolb found. His conclusion is based on the results of tests given to 3,000 persons desiring to enter the United States from Europe.

Men do comparatively better on these non-verbal, or performance tests than do women, although there is no reason to suppose that the men are more intelligent than the women. Children able to read and write do the tests as well as their illiterate mothers, and, because of the difference in age attain a higher intelligence quotient which is mental age divided by actual age. Young adults do better than older adults. And the difference between the illiterates and those who can read is very high.

These facts seem to indicate that ability on the tests depends to some extent at least upon the stimulating character of the environment and upon the education as well as upon innate capacity which they are supposed to measure, Dr. Kolb believes.

The average of the intelligence quotients of the illiterate women was below 50, which would place half of them in the classification psychologists call "imbecile" or even lower, but this rating is misleading, Dr. Kolb points out.

"The scores doubtless show very poor native intelligence, but they obviously did not mean all that they say. Fifty per cent. of these women are not imbeciles, or even feeble-minded, by any social standards."

The results for the men were also misleading, he found. Five per cent. of the men from southern Italy received a rating which showed them to have minds developed only to the level of an 8-year-old child, yet all had been able to support themselves and live within the law. It is known that some, with this grade of intelligence, come here, save money and send back home for their relatives.

Pedestrian's Rights

Organization Contemplated For the Protection Of Those Who Walk
"The Pedestrians' Rights Association" is the latest organization contemplated for the protection of pedestrians on highways and in the public streets. Letters of incorporation have been applied for by a firm of Ottawa barristers.

Protection of pedestrians from traffic dangers, promotion of publicity and instruction among the general public on such matters, the improvement of existing laws, and their enforcement, and the education of citizens in reporting infractions of traffic laws are among the objects of the proposed association.

Construction of public works in France is increasing.

"I am the luckiest man on earth."
"Just been accepted by your sweet heart?"
"No, just been dismissed by her."

Newest Northern Ontario Seaport

Moosonee, On James Bay, Plans For Settlement Of 5,000 People

The day before yesterday, figuratively speaking, the Hudson Bay region was ultima Thule as far as it concerned the vacation traveller. Now a line of steel in Moose Lake follows the Nelson River for many miles then turns north to the port of Churchill. An even more recent penetration is the extension of the Temiskaming and Northern Ontario Railway through northern Ontario to the old fur-traders' rendezvous at Moose Factory. Northwards from Cochrane the railway line follows the Abitibi River to the Moose and then turns eastward to James Bay. Here will be located the newest seaport of northern Ontario, Moosonee, where plans for a settlement of 5,000 people are under way.

A survey party is now laying out the townsite in accordance with the accepted plans which provide for schools, hotel, public buildings, hospital and sports field. Water for Moosonee will be supplied from Stone Creek. The 300 acre town will lie on the northern side of the Moose River, and will stretch for two and a half miles along the shore. The townsite will be the terminal of the line and will serve as a base for development along the coast of Hudson Bay such as fishing operations, the fur-trade and the pulp industry.

For years canoeists journeying down the Abitibi, Missinibi or Mattagami Rivers to the Moose River and thence to the Bay, were faced with the prospect of an arduous return trip up one of these rivers. Now the back-breaking tracking and pulling of canoes up the rapids, and the labour of carrying damage bags and outfit, over the portage has been rendered unnecessary. No longer need the pleasures of these cruises be marred by the thought of a laborious return—the "Iron Horse" has solved the difficulty.

The extension of this Ontario government owned railway has opened up some very attractive new fishing waters. Many of the smaller streams in this new section abound with brook trout and in some of the larger streams even sturgeon may be hooked.

Three European Nations Have Reciprocally Agreed Not To Impose Any New Tariffs

Canadian Institute Of International Affairs

Establishment Of A Permanent Office To Be Located In Toronto

Appointment of a permanent secretary and establishment of a permanent office, to be located in Toronto, was announced by the executive committee of the Canadian Institute of International Affairs, through Hon. N. W. Rowell, president of the institute.

Escott Reid, of Toronto, is appointed permanent secretary. Mr. Reid is a graduate of Toronto University (Trinity College) and a Rhodes scholar, taking his work at Christ Church, Oxford. Study of Imperial and international affairs is the object of the institute.

Branches are now located in Halifax, Montreal, Ottawa, Toronto, Winnipeg, Regina, Edmonton and Vancouver.

J. W. Dufour, of Winnipeg is a vice-president.

Strange Bird Bath

Imprint Of Dinosaur's Foot Sees Feathered Tribe At Ottawa
Ottawa may claim to having the most unique bird bath in Canada.

One of the large dinosaur footprints found at Peace River, collected for the National Museum of Canada, has been duplicated in cement. It has a length of more than two feet and a depth of five or six inches, and has been placed in the museum grounds.

The birds of the capital now may enjoy the privilege of a morning dip in the unique bath tub moulded from the footprint of a dinosaur made in the mud of a shallow western lake long before the Rocky Mountains arose above the plains.

Nearly one-third of the adult male population of France today consists of bachelors.

FORMER GERMAN CROWN PRINCE MAY SUCCEED VON HINDENBURG

ADOLF HITLER. PRESIDENT PAUL VON HINDENBURG.

What is regarded by the masses in Germany as the first step toward the restoration of the monarchy in the Fatherland will take place on October 2, if rumors persistently gaining ground in Berlin are to be believed. The report, the source of which is one of the most important newspapers in the chain owned by Dr. Alfred Hugenberg, opponent of Von Hindenburg in the recent Presidential election and head of the Nationalist Party, is to the effect that President Paul Von Hindenburg intends to retire on his 85th birthday and urge that he be succeeded by former Crown Prince Wilhelm. Although the rumors are vigorously denied in governmental circles, political observers point out that there had been a steady growth of Junkerism in the New Republic since Dr. Heinrich Brüning, recently ousted Chancellor, came into power. The appointment of Franz von Papen to succeed Brüning, they say, is further evidence of that trend.

Representatives of the governments of Holland, Belgium and Luxembourg have reciprocally agreed not to impose any new tariffs and to proceed by annual reductions of 10 per cent. until a defined tariff level is reached. They further undertake not to impose between themselves any new measure of restriction on imports or exports—such as quotas—except in special determined cases. Any other state will be entitled to adhere to the convention on a footing of equality with the signatory states.

It is preceded by a preamble in which the contracting states declare they are "permeated that progressive realization of greater freedom of trade is one of the essential conditions for world prosperity." They further declare they "are desirous of undertaking in this sense concerted action in which all states will be entitled to participate, thus contributing to the re-establishment of the general economic situation."

The necessity of some action towards restoring the stability of the monetary system and of re-establishing international credit with removal or amelioration of the trade restrictive measures that have appeared in late years, was urged in a resolution adopted by the three countries and Denmark, Sweden, and Norway, of which the agreement is the outcome.

International Friendship

Dedication Of Waterton-Glacier Peace Park

Another link has been added to the chain of international friendship between Canada and United States.

In the midst of border mountains and lakes, representatives of both countries extended international greetings as they dedicated the Waterton-Glacier Peace Park to 117 years of goodwill between the two nations.

Sir Charles Mander, Bart., of Wolverhampton, England, director and past president of Rotary in Great Britain, presided at the colorful ceremony, attended by representatives of political and clerical life, and hundreds of Rotary international members who sponsored the project.

Messages from Prime Minister Bennett and President Hoover were read by Lieutenant-Governor Walsh of Alberta and Governor John E. Erickson of Montana. Premier J. E. Brownlee headed a group of Alberta representatives, including Senator W. A. Buchanan.

Bands and church choirs from Montana attended.

Origin Of Familiar Term

Supersaturation Of Early Saxons Gave Us "Mares Nest"

Early Saxons believed in the existence of a queer monster named Mara, which crouched on the chest of sleepers (hence the term nightmare). This beast was supposed to live in a nest lined with gold. Credulous people used to look for Mara's nest hoping to discover the treasure. From this legend, any supposed great discovery which led to nothing, has become known as Mara's, or a mare's nest.

More than 18,000 people paid to hear a band concert in London recently.

"Are red cheeks a sign of good health?"
"Yes."
"Then you are healthier one side than the other."—Kasper, Stockholm.

Turkish Public Baths

Deprived Of Water

Citizens Of Ouria Resent Action Of Mayor Over Taxes
Fifteen thousand citizens of Ouria are crying for a bath.

A fight between the town government and the public bath owners over taxes led the mayor to cut off the water supply at all the bath houses. Tubs exist only in a few wealthy homes, so practically the whole population depends on the public pools for the cleanliness which the Koran imposes on every good Moslem.

The women of Ouria are particularly loud in their protests, as bath-day is the chief social event of their lives. They make a whole day of it, carrying their lunch along, and spending hours steaming themselves, reclining in the cooling rooms, eating nuts, drinking coffee and gossiping.

STILL ANOTHER NEW AND LOVELY DRESS THAT'S SUITED FOR TOWN, AFTERNOONS OR RESORT

Here's one of the smartest and most becoming models Paris has sent us this season. The becoming neckline, so cool and lovely, suits miss or matron.

It is smart carried out as its inspirator in a sheer crepe print topped by plain sheer crepe. It meets many daytime needs. It has special appeal for the business woman. Style No. 454 is designed for sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust.

Printed and plain crepe silk is conservatively smart. For real summery wear, a sheer bolero in gay polka-dots, a sheer linen tweed and tubular silks are decidedly chic and practical.

Size 36 requires 3 1/2 yards of 39-inch material with 1 1/2 yards of 39-inch contrasting. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

WORLD HAPPENINGS BRIEFLY TOLD

Eighty-two divorces were granted in Ontario last year.

Milk has dropped to eight cents a quart in Ottawa, the lowest price since 1921.

The Pope has approved construction of a new power station to make the paper state self-sufficient so far as electricity is concerned.

Having a face value of eight cents, a South African emergency stamp issued 77 years ago, was sold recently in London for \$7.40.

Napoleon Bonaparte, of Springbank, Alberta, who acted as interpreter during the trial of Louis Riel in 1885, died recently at Calgary after a brief illness. He was 71 years old.

Officials of the Harbor Grace, Nfld., airport, have received \$250 from Amelia Earhart Putnam in appreciation of their services at the start of her trans-Atlantic flight.

The Prince of Wales has consented to become patron of the Implacable fund which is being raised to save the old wooden battleship as a holiday training ship for boys.

F. Pettit of the Canadian Pacific Railway police, Montreal, captured the individual high score trophy for 1932 in the Dominion marksmen chess constables' revolver competition.

A high place in the New South Wales philatelic exhibition, held recently at Sydney, has been awarded to Canadian postage stamps, according to announcement from the post office department.

Depression has hit the medical professional membership of the Canadian Medical Association, which has dropped 393 this year, due largely to doctors in the west being unable to pay their fees. The total membership is 5,444.

Admiral Sir Ernle Chatfield, commander-in-chief of British naval forces in the Mediterranean, will succeed Admiral Sir Frederick L. Field, first sea lord, as a lord commissioner of the admiralty and chief of the naval staff, according to an order of the admiralty board effective February 28, 1933.

Where Milk Is Scarce

Settlement in Northern Manitoba Has Only One Cow

Although the government of Manitoba may take over the milk industry of the Province and operate it as a public utility, it is not expected there will be any change in the price of milk in the little settlement of Pik-witone, where the Hudson Bay Railway has a division point. The milk industry there is a monopoly. One cow, Betsy Jane, controls the whole output and it sells for 50 cents a quart. Betsy Jane is the only cow so far able to survive in that part of the country, whose winter elements are not propitious to the dairy industry.

A German who proposed to walk round the world got as far as Manchuria, where he married and settled down. A journey of this kind entails many dangers.

Eggs, butter, milk and salmon are the best means of providing vitamin "D" through food.

Almost one-half of the iron and steel produced in Germany last year was exported.

When Olsen has had a night out, his "chief" balances the petty cash—Karlrikuren, Oslo.

New Method Of Farm Management

Colonization Finance Corporation Adds To Staff Of Zone Managers

The recent appointment of a staff of six zone farm managers by the Colonization Finance Corporation of Canada, Limited, to assist farmers to maintain themselves in these trying times on their farms and to improve their condition, marks the latest and one of the most practical forms of constructive efforts in agriculture.

The Colonization Finance Corporation was set up a number of the leading insurance and trust companies of Canada for the purpose of meeting the situation caused by the general agricultural depression. C. M. Bowman, Waterloo, Ont., is president; J. F. Weston, Toronto, and Col. J. S. Dennis, vice-president; and T. O. F. Herzer, manager.

For several years this body has carried on its work in the province of Manitoba to the mutual advantage of farmer and interested mortgage company. There are six zones in Manitoba. So quietly has this valuable service been performed that few outside the persons immediately concerned had any knowledge of it. The excellence of the work and the sincerity of the effort in co-operation is amply shown in the way the farmers are responding to it. This year the zone farm manager is almost tried, making necessary the new appointments.

Six new men will enter the field, five for Saskatchewan and one for Manitoba. They are: H. B. Sommerfeld, Yorkton, Sask.; O. S. Longman, Indian Head, Sask.; Joe B. Day, Oxbow, Sask.; Oscar Winkler, Canora, Sask.; William Harkness, Weyburn, Sask.; Kenneth D. McLean, Birtle, Man.

Each of these men, along with that of the zone managers already appointed, come under the direction of the chief farm manager of the Corporation, Frank W. Reinisch, a man whose record in farm management, complete confidence in his ability and judgment.

The principle underlying this new financial development is not a new one. It is co-operation for mutual benefit. That it is a mutual benefit is shown in the readiness of the farmer to avail himself of the services of the zone managers.

The new feature of this service is the fact that a financial corporation is not only backing the land on which it made the loan, but it is also backing the man to whom it made the loan, and his ability to fulfill his obligations.

The Colonization Finance Corporation founders had a knowledge of the psychology of discouragement. When a farmer fell down in his regular payments on his mortgage his farm suffered. Anxious they his resources and resulted in a general let-down of his farming activities. Soil became depleted, weeds accumulated and the whole business sagged.

The argument for the new method of farm management was that if these farmers in which the loaning companies had an interest could be brought back to par, with the soil in good condition, clean and free from weeds, during the period of agricultural depression, when the chance for the better came and farmers could rely on a fair return for their labor, they would be in a better position to take advantage of the upward turn.

The Colonization Finance Corporation has been able to secure the services of men of the highest practical and academic standing for the work of advising methods of management of the farms included in the various zones. The men already in the field have proved their worth. In the two years operation in Manitoba the zone farm management plan has advanced beyond the period of experiment. This

year 300,000 acres have come under farm management, a large portion of which is in Saskatchewan. Altogether the Corporation has 434,000 acres under its supervision, consisting largely of mortgages in arrears, sales agreements and a small percentage of real estate.

Professor H. B. Sommerfeld, Yorkton, Saskatchewan

Prof. H. B. Sommerfeld, who has just received an appointment to the zone of which Yorkton, Sask., is the centre, was enthusiastically welcomed to his new field by the Board of Trade of that city, at a recent meeting held in his honor.

Like Mr. Reinisch, Prof. Sommerfeld has an exceptional academic standing as well as a practical experience which puts him in a class with the best farmers. He is on leave from the Manitoba Agricultural College now to fulfill the work of farm management for the important Saskatchewan district around Yorkton.

Prof. Sommerfeld was born on a Wisconsin farm, the son of the late R. Sommerfeld, breeder of purebred Holstein cattle, who migrated to Saskatchewan with his family and took up a three-quarter section of raw land in the Saskatoon district. This was finally developed into a dairy farm which won a greater production competition conducted in Saskatchewan. Wheat production on the farm reached an average of 30 bushels per acre for the 11 years that young Sommerfeld worked it.

During this same period Professor Sommerfeld joined the pioneer class in Agriculture at the University of Saskatchewan, was graduated from that institution with the degree of B.S.A. He followed this up with year at the University of Wisconsin which he received the degree of Master of Science in 1919.

Seven years as professor of animal husbandry and farm management at Manitoba Agricultural College followed. After attending the University of Minnesota, taking animal husbandry as a major, and agricultural economics and farm management as minor courses, he just recently received his degree of Ph.D. from the University of Minnesota.

Prof. Sommerfeld has been in frequent requisition as judge of livestock at fairs and exhibitions, including Brandon, Regina and Saskatoon. He also has trained stock judging teams in Manitoba Agricultural College, which have won four first place prizes in six years. He was also at the Toronto Royal Fair, in 1929, when his team won over the Ontario Agricultural College team. Prof. Sommerfeld has done work for the Agricultural Extension Departments of Manitoba and Saskatchewan.

O. S. Longman, Indian Head, Sask. O. S. Longman, who takes over the management of the Indian Head, Sask., zone, is a Western Canadian. He was born near Camarillo, Sask., and grew up in the Deloraine, Man. district. He is a graduate of Manitoba Agricultural College, and has been instructor in agricultural mechanics, field husbandry and other farm subjects at agriculture schools at Carleton Place and Olds, Alberta. In 1920 he was appointed principal of the School of Agriculture at Raymond, Alberta, and in this capacity superintended irrigation demonstrations and extension services among the farmers.

For some time Mr. Longman has been on the staff of the Alberta Department of Agriculture, where in connection conducted special investigations into conditions in the irrigated and drought stricken areas of that

province. His report on the dry areas resulted in the passing of the Berry Creek Area Act by the Alberta Legislature. He has also made a study of the best irrigation system, a survey looking to the establishment of a sugar beet industry in Southern Alberta, control of noxious weeds, use of commercial fertilizer, breeding and management of livestock.

Mr. Longman's appointment to the staff of the Colonization Finance Corporation was felt as a distinct loss by the farmers of Alberta and was deeply regretted by the residents of Hanna and vicinity.

Joe B. Day, Oxbow, Sask.

Joe B. Day is another graduate of Manitoba Agricultural College under appointment as farm manager for the Colonization Finance Corporation. His headquarters are Oxbow, Sask. Mr. Day also has a degree of M.Sc. from the University of Minnesota. Agricultural economics are a specialty.

A native of Iowa, Mr. Day's family settled in the Wilcox district more than twenty years ago. Mr. Day had management of the home farm for five years when he specialized in seed grain.

The Day farm was the one on which the Consolidated Mining and Smelting Company carried out an extensive experiment with fertilizers. Outside his own farm interests, Mr. Day has been connected with creamery and cow testing corporations. He also was with the Manitoba Wheat Pool.

While he was studying for his Master's degree he was field manager for a tax survey of Minnesota. His ability to get along with men in every position in country agricultural representative in that state, but he refused, preferring to return to Saskatchewan.

Oscar Winkler, Canora, Sask.

As manager for the Canora zone, the Colonization Finance Corporation obtained the services of Oscar Winkler, who has a degree of B.S. from the Manitoba Agricultural College.

Mr. Winkler speaks a number of languages and has enabled him to work effectively with the farmer clients in the Canora district, many of whom are of European birth and race. Already he has made his place in that district and his coming has been greatly appreciated by the farmers.

Mr. Winkler has been manager of a large sugar beet farm and assisted in the reclamation of a large tract of land in Canada. Since coming he has managed a large farm at Margo, Sask. Two years ago he entered the Manitoba Agricultural College from which institution he was graduated this year with the degree of B.S. During last summer he did extension work for the Manitoba Department of Agriculture, Manitoba Agricultural College, with headquarters at Steinbach, Man.

William Harkness, Weyburn, Sask.

William Harkness, who is now in charge of the Colonization Finance Corporation zone at Weyburn, Sask., was born and raised on a farm in Manitoba. Migrating to Canada he managed a large farm at Hartney, P.O. Point and Glenora, Man. He also is a graduate of Manitoba Agricultural College.

Enlisting in the 43rd Battalion, Mr. Harkness served overseas until 1919. On his return to Canada he joined the Soldiers' Settlement Board as field supervisor and inspector, holding this position until 1930. While with the S.S.B. he was supervisor in Southern Saskatchewan, Swift Current, Oxbow and Regina. He appraised the land, stock and equipment. In addition to his work among the soldier settlers he carried out special connection with the settlement of British families in his area. A valuable period of service with a private mortgage company preceded his appointment with the C.F.C.

Kenneth D. McLean, Birtle, Man.

Kenneth D. McLean, one of the younger farm managers of the Colonization Finance Corporation, has been appointed assistant in the Brandon and Moorhead zones of management. He is a Manitoba man, born in the Heston district, where his father is a successful farmer. He has done survey work in economics for the Pioneer Problem Committee, chiefly in the Swan River district, and won the Co-Operative Marketing Board scholarship for his highest standing in economics in second and third years.

Stainless Steel Secret

Story Of Discovery Will Be Revealed In 1960

The story of the discovery of stainless steel, a secret for several years, is not to be told for another three decades. Harry Brezler, discoverer of the process, has given the "cutlers' company" of Sheffield a sealed envelope, admonishing the society not to open it until the cutlers' feast of 1960. The envelope contains his story of the discovery.

Professor "Most of the objects found in the tomb of Tut-Ankh-Amen are covered with hieroglyphics." She—"Good gracious, how awful. But then I suppose they are all dead."

Bulgaria is restricting the entrance of luxuries into the country.

SUNDAY SCHOOL LESSON

JULY 8

CHILDHOOD AND EDUCATION OF MOSES

Golden Text: "Train up a child in the way he should go; and even when he is old he will not depart from it." Proverbs 22:6.

Lesson: Exodus 2:1-10; Acts 7:20-22.

Devotional Reading: Psalm 119:9-16.

Explanations and Comments

The Birth and Hiding of Moses. Exodus 2:1-4.—To Amru and Jochebed (Exodus 6:20), husband and wife who belonged to the tribe of Levi, a son was born who was strong and healthy, "a goodly child." Stephen calls him "exceeding fair," Acts 7:20. "Some people have and struggle all their lives against physical disabilities and deformities. It is useless to teach a child to walk when he is born with fellows by unusual attractiveness and power, that he is no better than his fellows. There is only way of coping with the situation. From the beginning, the privileged one must be taught his duty to the unprivileged. Privilege and responsibility are inseparably united. That is the wholesome truth which is as salt to the unsalted bread of life."—J. C. Gill.

For three months Jochebed kept her baby securely hidden, despite Pharaoh's edicts that every male child of the Hebrews should be cast into the Nile, where they would drown and their bodies be devoured by the crocodiles.

There are hosts of babies in our great world who are exposed to a worse fate than were the Hebrew infants. What is being done to save them?

Jochebed was a woman of ingenuity and daring. The time came when she knew the presence of the babe must be discovered and when she made a chest (ark) out of papyrus plants (bulrushes) and daubed it with bitumen (pitch) and put it in the river-water-tight; into this she put the babe and laid the chest among the reeds of the river bank. His sister Miriam was left to watch from a distance.

The Education of Moses. Acts 7:20-22.—In his historical address to the Sanhedrin just before he was stoned to death, Stephen tells about the birth and saving of Moses, and declares that he was instructed in all the wisdom of the Egyptians, and was mighty in his words and works. Acts 7:22-44, and Hebrews 11:23-29. "It is my profound belief that a sacred purpose and mission attaches to every man, and that to every man is committed a certain definite and positive work. Every man is given a key by which he can turn some lock, open some prison door, and become a minister of emancipation. There are smaller spheres in which smaller men can be leaders and commanders, and in these work they are born. Every man is born to manifest the display of petty tyranny, and in the presence of oppression to play the man. Every man is born to continue moral service to his time."—J. H. Jowett.

Case Puzzles Doctors

Bones Of Eleven-Year-Old Girl Break With Slight Strain

Physicians are puzzled over the case of Mary Meadhead, Homer, Mich., who has never been in a serious accident, yet has broken nearly every bone in her body.

The 11-year-old girl was under treatment in a Chicago hospital by Dr. Frederick Harvey, of Northwestern University. She was suffering from a broken arm caused by a slight strain.

The physician said X-rays revealed nearly every large bone in her body had been broken at least once.

"The examination showed that the bone structure is so thin and brittle," said the physician, "that the slightest stress causes a fracture. She has had 35 to 40 fractures."

German railways will run excursion trains with secret destinations.

The sweet pea is a native of Sicily.

The drawer of memories. His comb—Moustique, Charleroi.

BRITAIN FAVORS U. S. PROPOSAL FOR ARMS CUT

Geneva, Switzerland.—Proposal of President Herbert Hoover for a one-third reduction in world armaments, which provoked instant opposition from France and varying degrees of approval from other countries when submitted by the United States delegation to the disarmament conference, was welcomed for its "breadth of view" and at the same time supplemented by additional suggestions in a statement made on behalf of Great Britain by Sir John Simon, foreign secretary.

The United States proposal to cut one-third of naval, military and air armament expenditures with a resulting saving to the world estimated at from \$10,000,000 to \$18,000,000 in the next 10 years was regarded, despite absence of official confirmation, as a condition to reopening the war debts question. This view appealed to many observers despite the stress placed by the United States government on the statement that its representatives here have not discussed war debts and reparations.

Greeting the pronouncement with the words "that any reasonable step whereby the vast total of men under arms throughout the world can be reduced in any way which does not diminish the security of any country, is welcome," the British foreign secretary went on to declare, "I say boldly, on behalf of the United Kingdom, that in some respects we want more disarmament than here appears. We have made no secret of the fact that we want submarines entirely abolished and indeed we have hitherto understood that in this respect we have the support of the United States delegation."

"But if submarines cannot be abolished," continued Sir John Simon, "and the view prevails that for some powers they provide an element of defence in home waters, then let us at least limit their size to 25 tons. Again, since the subject of capital ships is again mentioned today, the United Kingdom delegation desire to point out that, as they understood it, the proposals now submitted make no provision for reducing their monstrous size."

Hugh M. Gibson explained the Hoover program. It meant the United States was ready to scrap 800,000 tons of naval vessels and to forego the right to build more than 150,000 tons.

"In land materials," said Mr. Gibson, "our proposals would affect more than 1,000 heavy mobile guns and approximately 900 tanks; in aviation, about 300 bombardment aeroplanes." Joseph Paul-Boncour, French Minister of War, promptly responded: "Reduction of armaments is inseparably bound up with security. We are willing to study the Hoover proposals if the Americans will study the requirements of French security."

"Absolutely unacceptable," was the description of the Hoover proposals given by the French Minister of War in a press interview.

The German representatives said the proposals would give the conference "a new impetus." Readiness to co-operate was expressed by Japan and more enthusiastic response made by Italy and Russia.

Deferred Elections

Report Manitoba Conservatives Will Not Contest Northern Ridings

Winnipeg, Man.—Conservatives of Manitoba will not contest the two deferred election seats at The Pas and Rupert's Land, it was made known at party headquarters here. Nomination day in these two northern ridings is July 4 and polling day July 14.

There will probably be an acclamation in Rupert's Land but in The Pas the Independent Labor Party will force Premier John Bracken to an election.

B.C. Coal Production

Victoria, B.C.—Coal production in British Columbia for the month of May showed an increase from the corresponding month last year, according to a report issued here.

W. N. U. 1948

Destructive Wind Storm

Tract Of Fertile Land In Southern Saskatchewan Suffers From Gale Milestone, Sask.—Reminiscent of the Regina cyclone of June 30, 1912, the district south of Milestone was visited by a heavy wind storm accompanied by rain and hail which did untold damage to buildings and crops lying in its path. The gale came up quickly, and though it lasted for little more than half an hour it spread destruction over a tract of fertile land approximately three miles wide and 12 miles long lying about four miles south of town.

There were no deaths resulting from the storm, but Robert Rennick, Jr., had a terrifying experience and a very narrow escape when the house in which he had been residing was lifted off its foundation and smashed to kindling wood. Mr. Rennick was alone at the time, his wife being away visiting relatives, and he jumped from a height of about 15 feet to the ground. His only injury was a sprained ankle.

It was the worst storm ever experienced in this locality. The worst hail damage was apparently done to the farms of H. V. Underwood, Mrs. A. J. Bradley, Ross Cottingham and Wm. McCartney.

Famine In China

Camulbham Reported Rife In Desolated Areas

Vancouver, B.C.—Desolation and disaster in the famine areas of China were described to members of the Canadian Club by Very Rev. Hewlett Johnson, dean of Canterbury Cathedral, Canterbury, Kent, England. Dean Johnson spent three months studying conditions in China.

Camulbham was rife in areas where food was scarce, he declared. Conditions were so bad they were almost beyond imagination. "One missionary told me he had actually witnessed the preparation of human flesh for food."

Many desperate people resorted to suicide when they had gone without food for days and no relief was in sight. Relief workers were under a severe handicap, due to poor transportation facilities, he concluded.

New "Mountie" Posts Being Established

One At Fort Norman Will Be Opened At Once

Calgary, Alberta.—Royal Canadian Mounted Police will be stationed at Fort Norman in the Great Bear Lake area of Canada's north, according to an announcement made by Major-General J. H. MacBrien, C.B.E., C.M.G., D.S.O., commissioner of the R.C.M.P. An officer may be stationed also at Echo Bay, near the centre of the mining fields.

The Fort Norman detachment, he said, would control the activities at Great Bear Lake, scene of recent radium-bearing ore finds, which drew hundreds of fortune hunters into the district. Establishment of the Echo Bay post will not occur for some time, he stated.

WELCOMES DISARMAMENT

SIR JOHN SIMON

British Foreign Secretary is strongly in favor of President Hoover's proposals, and would even go further.

Veterans Ask Probe

Claim Alleged Fraud Casts Shadow On Administration Of Pension Act

Ottawa, Ont.—Declaring publicity given to allegations of fraud and misrepresentation in connection with war pensions casts a serious shadow on the administration of the pension act, the Associated Veterans of Canada have issued a statement calling for an investigation of the charge.

The statement is signed, representatives of the Army and Navy Veterans, the Canadian Legion, including the Tubercular Veterans section, the Great War and the Sir Arthur Fairbank's Association, the Canadian Pensioners' Association, the son Club of Blind Sailors and Soldiers.

Ottawa, Ont.—No "general investigation" into the war pensions system and into funds that have been perpetrated by reason of misrepresentation on the part of a number of recipients is contemplated, Colonel J. G. Thompson, chairman of the Board of Pensions Commissioners, said. That frauds existed was known, and these were being checked daily.

Epidemic In China

Cholera Reported To Be Raging In Southern Provinces

Hong Kong, China.—Cholera is raging throughout South China. Nearly 200 new cases are being reported each day, and 70 per cent. of the cases are proving fatal.

There was none at Hong Kong, but Canton was reported especially hard hit.

A report from Wuchow said a Chinese was arrested in possession of white pellets which he said certain foreigners paid him to throw into wells.

Report Treasure Found

Vancouver, B.C.—The Coos Island treasure, sought by a party from Vancouver and estimated to be valued as high as \$20,000,000, according to some versions is reported to have been located.

Cowboys Hold Bronchos

Until Toronto Rodeo Authorities Come Across With Wages

Toronto, Ont.—Never-say-die spirit of the Canadian west has manifested itself here in unusual fashion.

An even score of cowhands from southern Saskatchewan and Alberta were trending 65 bronchos on the outskirts of Toronto. They rode off with the animals when they did not get paid for their week's work at a local stampede and rodeo. And they have declared their intention of keeping the bronchos until the rodeo authorities come across. Seven-foot-tall Harry Hourie, of the Wood Mountains, relative of the man who captured Louis Riel, instigator of the Northwest rebellion, was in the van as the 20 odd rode off with the 65 bronchos.

Had Minor Misfortune

Saskatchewan's Treaty Paying Party Delayed By Motor Trouble

Regina, Sask.—Minor misfortune struck Saskatchewan's treaty paying party which started out early in June for its 2,000 mile trip along the waterways of the north taking out thousands of new dollar bills to pay the Indians, according to Inspector W. M. Murison, of the Indian Department. The outboard motor broke down and it was necessary to send out an auxiliary motor to the party.

The canoe party is now on its way to Portage la Roche near the Alberta boundary, and it has already paid treaty at Canoe Lake and Clear Lake. S. H. Simpson, Battleford, is the paying officer this year.

Resuming Work As Railroad Engineer

Hon. Peter Heenan Going Back To His Trade

Montreal, Que.—Hon. Peter Heenan, former Liberal Minister of Labor, is going back to overalls as a locomotive driver, and hopes to take the throttle July 8—the 36th anniversary of his arrival in Canada.

"It is my trade, and a good one," he said. "Besides I have a family to support."

Credit Men Meet

Saskatoon, Sask.—J. A. Acheson, Sherwin-Williams Paint Company, Winnipeg, was elected president of the Canadian Credit Men's Trust Association at their annual meeting here. J. F. Sullivan, Quaker Oats Company, Peterboro, Ontario, was named vice-president; H. Detchen of Winnipeg, being re-elected general manager.

Combat Forest Fires

Toronto, Ont.—Approximately 1,000 men have been added to the regular fire-fighting contingent of the Ontario Forestry Branch this year owing to the particularly difficult bush fire situation which had prevailed throughout widely separated parts of the province. Hon. William Finlayson, Minister of Lands and Forests announced.

DEVALERA PLAN DOES NOT MEET WITH APPROVAL

London, England.—Suggestions of President Eamon de Valera, of the Irish Free State, that the difference between Great Britain and the Free State over the payment of land annuities should be referred to an international tribunal is unacceptable to the British Government. It was understood here following a meeting of the cabinet.

Considering its reply to De Valera's last note, in which the suggestion was made, the cabinet was believed to be firm in the opinion that only an Empire body could be permitted to arbitrate matters affecting the relations between the governments at London and Dublin.

At the same time the ministers were not inclined to contest vigorously a second point in the De Valera communication, namely, that if and when the land annuities dispute was referred to arbitration, other annual payments by the Free State to Great Britain should also be considered. It is, therefore, regarded as probable here that if the Irish authorities were to agree to the principle of arbitration before an Empire tribunal, Great Britain would consent to having the scope of the hearing extended beyond the matter of land annuities.

Advertise the West

Formal Opening Ceremonies At Port Churchill Are Approaching

Winnipeg, Man.—Formal opening of the Port of Churchill during the present season would meet with the full approval of the Manitoba Government, two cabinet ministers stated. They added the hope the ceremony would be one which would advertise the prairie's direct outlet to the sea to the world, and viewed with favor the suggestion that overseas delegates to the Imperial Economic Conference should attend.

The recent statement of Hon. R. J. Macdonald, Federal Minister of Railways and Canals, that he was considering plans for formal opening ceremonies in connection with both Churchill and the Welland Canal led Hon. W. J. Major, Attorney-General, and Hon. J. S. McDiarmid, Minister of Natural Resources and Industry, to hope for early action.

Business Brisk At Churchill

Transport Company Is Increasing Equipment To Handle Freight

Churchill, Man.—Transport Limited, northern freighters, with headquarters at The Pas, have moved their Churchill offices and stables from their former site near the town survey to a truckage site near the grain elevator. G. A. Reid is in charge of operations here. The business of hauling package freight has increased. Word was received here that Capt. Harvey L. Weber, president of the concern, is shipping more horses north to take care of added business.

Production Of Cars

Ottawa, Ont.—Production of automobiles in Canada, in May, totalled 8,221 cars, as compared with 6,810 cars during the previous month, according to a report issued by the Dominion Bureau of Statistics. Customs records for May showed that 163 cars were imported into Canada and that 374 were exported during the same period.

Trade Agreement Pending

Berlin, Germany.—An agreement between Germany and Canada to negotiate a commercial treaty within six months was announced by the German Government. Higher tariff duties will not be imposed in the meantime, the contracting countries were said to have agreed.

Lowers Own Record

Cherbourg, France.—The steamship "Empire" of British ownership set a new record for the Atlantic crossing again by an hour from her own record. She arrived at Cherbourg in four days, seven hours and 58 minutes from Father Point, Quebec.

Plane for New 'Round-the-World Attempt

This is the Lockheed monoplane which will be used by Bennett Griffin, war veteran, and Jimmie Matern, in their attempt to better the 'round-the-world record set by Harold Gatty and Wiley Post last summer. The fliers recently arrived in New York from Oklahoma to prepare for their globe-encircling flight. The present record for the long trip is eight days and fifteen hours.

Picnic at the Beach.

Edmonton Beach was in gala attire on Sunday last, when the theatre employees from Edmonton and their friends to the number of over 1000, held their annual picnic. Entertainment ranged from sports events to a monster wiener roast for the evening, when everyone at the Beach, cottagers and visitors, were invited to participate.

Calendar

- JUNE -
30—Midnight Frolic at Edmonton Beach.
- JULY—
1—Muir Lake Community Picnic and Dance.
1—Sports Day at Tomahawk.
3—Missionfest, St John Church, Golden Spike.
7—Town Council meets.
8—U.F.A. Picnic at Brightbank.
13—Women's Institute meets.
18—M. M. Mecklenburg at Stony Plain.
31—Concordia Lyrio Quartette's concert.

Church Services.

English Lutheran services will be held at St John's Lutheran Church at Blueberry next Sunday July 3d at 2.30 p.m. A cordial invitation is extended to all.

German Lutheran services will be held in Stony Plain next Sunday at 2.30 p.m.

United Church service every Sunday Evg. at 7.30.

Services in St. Philip's Church next Sunday, 7.30 p.m.

On Sunday July 17 there will be Lutheran services at St. Matthew Schoolhouse at 7.30 p.m., by Rev. H. Kuring.

Lecture on "Christian Fundamentals" by Pastor Kuring, at St. Matthew Schoolhouse No. 2, July 6, at 8 p.m.

Schedule of Mails.

To the East—Every day except Sunday; train No. 2, at 6.18.
From the East—Every day except Mon.; train No. 1, at 24.16.
To West—Sun., Tues. & Friday train No. 1, at 24.16.
From West—Mon., Wed. & Friday train No. 2, at 6.18.
Reg. for the East, Mon. Wed. and Friday.
Reg. for the West, Sun., Tues. & Thurs.

Mail should be posted before 10 p.m. for dispatch, to both Trains No. 1 & No. 2.

Bus Time Table.

Stops at Royal Cafe.
To Edmonton, 9.40
To Evansburg, 17.45

GLYCERIN MIX REMOVES CAUSE OF STOMACH GAS

Simple glycerin, buckthorn bark, saline, etc., as mixed in Adlerika, acts on BOTH upper and lower bowel, removing poisons you never thought were there and which caused gas and other stomach trouble. Just ONE spoonful relieves GAS, sour stomach, sick headache and constipation. Don't take medicine which cleans only PART of bowels, but let Adlerika give you a REAL cleaning and see how good you feel! It will surprise you! J. F. CLARKE, Drug-gist.

The places of business in Stony Plain will close at 1 p.m. on Wednesdays.

Youth Became Exhausted.

Having finished his exam. paper at the Public school on Thursday morning and gotten his lunch, young Eddie Wudel and a pal rode their bikes out to the Lake for a cool dip. Changing to their bathing costumes the two elected to swim to a raft about 50 yards from shore, and they were within 50 ft. of their objective when tragedy overtook them. A wind and rain storm was on at the time, and the buffeting of the wind and waves proved too much for the Wudel boy's strength and he succumbed exhausted.

Dr. Oatway and Dr. Walton were notified, made a hurried trip from town, and worked on the body for over 2 hours in an unsuccessful effort to revive the youth.

The funeral of Edward Ph. Wudel, son of Mr. and Mrs. O. G. Wudel, took place on Sunday afternoon, the services being conducted by Rev. E. Eberhardt and the Rev. H. J. Buethe. Interment was made in the family burial plot in St. Matthew churchyard. The pallbearers were six of Edward's boy friends: Fred Mayer, Walter Larson, Otto Miller, Ralph Lory, George Trapp and Henry Pailer. Deceased was in his 15th year; is survived by his parents, four sisters and four brothers, all residing in Stony Plain.

Card of Thanks.

Mr. and Mrs. O. G. Wudel and Family wish to thank their friends for the kindness and sympathy shown during their recent bereavement; also for the many beautiful floral tributes received.

Obituary

The death occurred in Stony Plain on Saturday afternoon of Edward Gronbeck, formerly a farmer of Brightbank district, and for several years a resident of this town.

Deceased, who was in his fiftieth year, had been suffering for some time from a kidney complaint, and had undergone an operation last year.

The funeral took place on Monday from the family residence on Meridian road; the Rev. G. A. Sauder officiating at the service.

Deceased is survived by his wife and one young daughter, Thelma.

Golden Spike

Trips with tanks to Turner Valley for gasoline and oil are becoming quite common now. Last week a large-sized tank, manned by John Dedick and Hy. Rosenbaum of Golden Spike, returned from the Valley with a load of this cheaper gasoline.

The Missionfest, held last Sunday at the Zion Lutheran church was quite a success.

DIED—The death occurred at Golden Spike on June 24th of Mr. Gottlieb Appel, an old time resident of this district. The funeral took place on Monday June 27. Services were held in St. John's Lutheran church by the pastor, Rev. P. Hanneman.

Your correspondent hears that Mr. Karl Geisting intends taking a trip to Jasper the fore part of July.

Cheating the Chink.

One of Stony Plain's business men fell a victim Friday last of the old film scam game and now mourns the loss of five bucks. Early in the afternoon a stranger entered the restaurant of Wong York, on Main St., asked for a 15 cent package of tobacco, and on the strength of being an acquaintance of Wong's nephew Charlie, started a friendly conversation, proffering a one-dollar bill in payment of his purchase. Presently the stranger asked Wong to give him a five dollar bill for his five one's. So soon as Wong produced the \$5 bill his visitor asked Wong to give him a \$10 bill for the money on the counter. This Wong unwittingly did; upon which the stranger departed.

Wong's attention was then taken up by attending to his juvenile candy buyers. When these had departed, Mr. Wong got around to checking up on his transaction with the stranger. When Wong realised he had been gypped out of five bucks he merely remarked "Ischkobibeldam!" or words to that effect.

The story lacks confirmation that the Chinaman was so peeved he went home and bit the tail off the goldfish.

CANADA

THE WORLD'S GREATEST PLAYGROUND

Wide Variety of Recreational Attractions

Canadians Fortunate in Holiday Advantages Their Country Offers

The majority of Canadians probably do not realize what a wonderful choice of vacation opportunities this country offers. How many of us in any one province have first-hand knowledge of the wide range of attractions of our neighbouring provinces? Many no doubt have gone abroad to seek a holiday, forgetting that our own Dominion is unequalled in the exceptional variety and range of its recreational resources. Surely a country which attracts visitors from other countries by the tens of millions must have recreational features of interest to its own citizens.

Recreational Areas Easily Accessible

It is so easy to travel in Canada that an interprovincial tour is a recreation which every Canadian vacationist may well find pleasantly undertake. All the developed and much of the undeveloped part of the Dominion is easily accessible by train, boat, or automobile. Canada is served by two of the world's greatest railway systems and a number of smaller lines. The equipment and service are of the highest standard. Seasoners built specially for pleasure cruising afford many pleasant trips along the coast and on the extensive inland water system of lakes, rivers and canals. A cruise from the head of the Great Lakes to the Maritime Provinces is nearly equal in distance to an ocean voyage. Good roads lead to practically all scenic and sporting territories. Canada's road system includes many thousands of miles of surfaced highways, well equipped with direction signs and distance signals. Tourist accommodation, from campsites to hotels, is available almost everywhere.

National Parks Cover Large Area

National and provincial parks in Canada cover nearly 25,000 square miles. They are areas which have been withdrawn from exploitation and are being preserved in their virgin beauty and wilderness for our posterity. The largest national parks are the Rocky Mountains section of Alberta a region of unspoiled scenic splendour admirably suited by nature for all forms of sport and recreation. There are also many national parks in British Columbia, Saskatchewan, Manitoba, Ontario and Quebec. Accommodation ranges from the way from large modern hotels, to log cabins and tents. Facilities

one of the chief attractions in the parks, but game animals and birds are rarely protected and their fearlessness never fails to interest visitors.

Summer Resorts Numerous and Varied

Throughout the Dominion there are many summer resort districts which offer a wide range of attractions and variety of accommodation. On the Atlantic coast, in the province of New Brunswick, Nova Scotia and Prince Edward Island, are several sea-shore resorts where salt-water bathing, sailing and deep-sea fishing are the principal attractions. The rugged beauty of the coast and the picturesque charm of the fishing villages at the head of every inlet cannot fail to enchant the summer visitor.

Quebec's summer playgrounds are of the most varied nature including as they do, sea-shore, mountain, lake and forest resorts. Along the lower St. Lawrence, summer colonies have been established at many points. North of the St. Lawrence and Ottawa rivers the Laurentian mountains, clothed with pine forest and dotted with lakes constitute a vast summer and winter playground. The Eastern Townships, which adjoin the international boundary, also have a number of well-established resorts, on picturesque lakes and rivers.

Ontario has perhaps the largest number and greatest variety of developed summer resorts of any of the provinces. The Thousand Islands Lake of Bay Muskoka Lakes and Greenham Bay are known throughout America, but there are in addition equally attractive out-

standing less known districts. Accommodation includes everything from campsites to palatial hotels, and cottages may be rented, in any district.

In the provinces of Manitoba, Saskatchewan and Alberta many attractive resorts are located along the shores of the lakes and rivers. The Canadian Rockies are world famous for scenic beauty and contain some of the most highly developed tourist resorts on the continent.

British Columbia, with varied and splendid scenic attractions, is a tourist's wonderland. The province has majestic mountain ranges, and extensive lake area, stately forests, an immense coast line, and many attractive resorts in settings of exceptional natural beauty.

Government Bureau Free Information Service

For a number of years the Department of the Interior at Ottawa has been engaged in the promotion of the Canadian tourist industry, more especially the development of tourist travel from the United States to Canada. It is also endeavoring to influence Canadians to spend their vacation in the Dominion. The National Development Bureau of that Department will gladly furnish interprovincial road maps and other information for the use of those planning a Canadian tour, and where necessary will refer enquiries to provincial and local tourist organizations. Applicants should be as specific as possible as to the section of Canada in which they are interested, in order that available information may be supplied.

Stony Plain and District

Wm E Gellhouse, a former Alberta-Pacific Grain Co. elevator manager here, paid us a visit on Sunday.

J F Clarke made a week-end trip to Jasper.

Miss Esther Wolfe starts tomorrow on a two-weeks' vacation.

Miss Martha Miller, Wembley, is visiting here this week with her sister, Mrs C Lory.

Mrs Murd McKinlay, Miss Florence McKinlay, and Mr and Mrs Gordon Botsford expect to start for the East on Saturday, on a two months' motor trip.

Rev W E Sieber, Mrs Sieber and the two Miss Siebers arrive in Stony Plain this week.

Rev Sauder, Mrs Sauder and the children left Tuesday for their new home at Naco.

Saturday's midnight train had 17 coaches, a large number of the passengers coming from the City, and were taking advantage of the excursion rates to Jasper.

Mr and Mrs Ph Miller have moved from the Royal Hotel to their new residence on 1st ave.

On Tuesday, on the local diamond, the Winterburn ball team played its postponed game with Walther League. Wintys got eleven runs in one inning, and finished the game with 17 runs to the Walther Leigues's 5.

Radio Receiver Licenses.

The Dept. of Marine has announced that the period of grace for those who have not taken out radio licenses for the current year has expired and steps will now be taken to ensure compliance with the license requirements on the part of all radio owners.

2 Meals a Day, Plenty

Water, Helps Stomach.
"Since I drink plenty water, eat good meals a day and take Adlerika now and then, I've had no trouble with my stomach."—C. DeForest.
Unlike other medicines, Adlerika acts on BOTH upper and lower bowel, removing poisonous waste which causes gas and other stomach trouble. Just ONE spoonful relieves gas, sour stomach and sick headache. Let Adlerika give your stomach and bowels a REAL cleansing and see how good you feel! J. F. CLARKE drugist.

Edmonton Beach.

The big attraction at the Beach Pavilion tonight, Thur. June 30, will be a series of boxing bouts, starting 9.30. Leaders on the card are: Bill Mailhoff & Carl Litzenger; A Moldenhauer & Herb Dumanche; Bill Moldenhauer & Dave Savard; Ken Kreye & Ed Moldenhauer; also open-air bouts on the raft. To be followed by a midnight frolic. This is something new in entertainment. Come one, come all; follow the crowd to Edmonton Beach! Admission—gent 50c, lady 25c.

Edmonton Ex. July 18.

Buy your Edmonton Ex. tickets now. Many have delayed purchasing their cut-rate tickets, thinking to buy them while the exhibition is in progress. This will not be possible, and in order to get the cut rate, tickets must be bought in advance. Tickets are now on sale in Stony at the Royal Cafe. The tickets are 5 for \$1.

Lightning Hits Wagon.

While driving home to his farm at Drayton Valley, Halmar Ramstad had the misfortune to have a bolt of lightning strike his wagon wheel rim in a recent electrical storm, the rim being split by the lightning. The flash started his team on a runaway spurt, and Halmar being knocked unconscious, had a very narrow escape from death.

Brightbank News

The picnic committee for the Brightbank and Hansen's Corner U. F. A. Local's joint picnic have made their final arrangements; date, Friday, July 8; place, half-mile south of Lucknow School, on H H Summerfield farm. There will be baseball, basketball, races, high jumping; running, broad jump, tug o-war. Ladies will please bring baskets. Messrs J W Bowser, O Radkie, E Stirling, O Erickson are the committee. Dance at night. Talk about big families and hard times. Mr M Mickelson has a Poland China lady porker with a family of 19.

What might have been a serious accident was avoided by the good horsemanship of Miss Shiels Young when out driving recently with her span of Hambletonian drivers. She met with a car around Schultz Lake, where the road was too narrow to pass. She turned sudden up the steep, half-pitch bank and sharply down again before the vehicle could upset; while the driver of the car seemed too scared to move.

It is now quite evident that the horse will come back again. A horse breeder association is likely to be started in this district. The parties interested seem to have some difficulty in deciding on which breed to raise. One prominent farmer favors the Shires. He claims the ones they used to have in Nebraska could pull a 16 inch gang plow 16 hours a day, and it necessary make a 16 mile trip to town in the evening.

Heard on the Phone.

Farmer (using phone for first time)—Send me a bag of oats.
Voice over the wire—Who are they for?
Farmer—Ere, don't get funny wit me, me lad. They're for me bloomin' 'ores.

Fertilizer Gives Results.

The crops on the farm of Mr McLaughlin are receiving a very favorable comment from the visitors who are daily giving those the once-over; the reason being that the 300 acre plot had been treated with Elephant Brand Fertilizer, for which Mr Jack McLaughlin is the agent. Mr Jack and a field man from the makers of Elephant Brand on Tuesday visited some of the farms of those farmers who had treated their land this spring. The farm of Mr Carl Schlecker at Holborn was visited, where the grain on the "treated" land was in excellent condition. A trip was also made to the farm at Heatherdown of Mr Zilhoer, where a large area was submitted to the Elephant Brand Fertilizer treatment.

Spruce Grove News.

Spruce Grove Municipality councillors hold their regular meeting on Monday next, 4th July.

Mr Mike Duchulka made a trip to Jasper over the week-end.

The new preacher at the United Church, the Rev W E Sieber, delivers his first sermon here on next Sunday morning.

The crops in this district are looking better than ever; the recent rain showers have brought them along in good shape.

Following last night's ball game, the Grove ball team will have an quiet spell until the 13th, when Stony's team meets them on the Groves diamond.

His Excellency Archbishop O'Leary will administer confirmation at St Joseph church Sunday July 10.

She Wanted to Know.

A clergyman always told his little daughter of seven a story after she was in bed. One night he gave her a more thrilling one than usual. She jumped up in bed, looked at her father and asked: "Is that a true story, Daddy, or are you preaching?"

Knockers.

There are knockers everywhere. It is easy to be one: it requires no brains; any fool, dull, ignorant, uneducated, uneducated person can open his mouth and bray.

A wise person is he who knows how to keep his mouth shut; a fish gets caught because he opens his mouth.

See Mecklenburg about your glasses; in spite of the knockers, he gets the business, for his patrons know he is shrewd, conscientious, fair. At Royal Hotel, Mon. July 18.
